# FACULTY OF DENTISTRY

Faculty of Dentistry, Universiti Teknologi MARA has been officially established in 2006. The Faculty grows stronger by the year with vibrant and energetic team of academicians and all staff members. The Faculty admitted its first class of students in July 2006. Since the inception, the Faculty has gained a national reputation for excellence. In addition to its first professional degree (BDS) programme, the school offers postgraduate programmes in research and clinical doctorate programmes. Many more programmes will be introduced in the near future to supply a high demand of oral health professionals in the country. Today, the faculty has produced more than 100 dentists in Ministry of Health, University and Private Sectors.

Faculty of Dentistry is committed towards quality education by having a constant review by the professional bodies and experts in and outside Malaysia. All of the curriculums are based on Outcome-based Education (OBE) to ensure graduates have what it takes for them in the real world. The facilities are equipped to assist students and staff members to give their best for the teaching or learning and clinical training. Teaching and learning also utilize innovative audiovisual equipment and teaching aids in the interest of extraordinary learning experience.

## Bachelor of Dental Surgery BDS (DS240) PROGRAMME

The BDS Programme consists of two preclinical and three clinical years which will be assessed through five professional examinations. Blended learning approach consist of didactic problem based learning, utilizing outcome based education with emphasis on student-centred teaching and learning. Vertical integrations of basic medical and dental subjects in Year 1 and 2 are applied in pre-clinical and clinical years. Professional development directed to generic competencies is incorporated in all 5 years of study. Progress test is carried out at the end of each semester / module. Upon completion of this programme, graduate will be conferred 'Bachelor of Dental Surgery (BDS)' which will be entitled to practice General Dentistry as accordance to the Dental Act.
